

Camden

The Premier Choice

Introducing the new Camden

For over forty years, Camden Group has grown progressively into a market leader in the manufacture of windows and doors throughout Ireland and the UK.

Through innovative processes, dedicated customer service and our unrivalled capacity for production, we have become renowned as a quality partner across the industry.

With a fresh new look for Camden – this is a representation of our commitment to our customers, to growth, quality, and innovation.

It marks the start of an exciting new chapter together, one where we'll continue to deliver excellence and shape a bigger, brighter future. Together lets build the next 40 years of success.

Best Regards,

Brian Lavery
Owner & Chairman

Driven by our values

4

People are at the heart of our business and as we enter the next phase at Camden, we are driven by our values. We remain steadfast in our commitment to producing quality products and customer service for our partners.

People First

People are at the centre of everything we do. We're committed to developing our team, exceeding customer expectations, and delivering lasting value with a positive impact for all.

Quality & Trust

We are here for our clients. Our reputation has been built on decades of trust. We are committed to delivering exceptional products and services, ensuring reliability every time.

Leadership

At Camden, we set the standard. Our commitment to innovation and forward thinking drives us to stay ahead of the curve, creating solutions for the future.

5

Quality products, every time

With Camden as your preferred supplier you're choosing premium quality and attention to detail. Every window and door we produce undergoes thorough inspection by our dedicated quality team, ensuring each product meets the highest standards of durability and performance.

With Camden, you can be confident that every item you receive has passed rigorous quality checks, delivering exceptional results for your projects, time after time.

At Camden, excellence is in every element.

-Salter Meadows

Windows

Fully designed and developed in our manufacturing facility, our windows have a superior performance uPVC profile system.

Combining innovative design with advanced manufacturing techniques, Camden windows are made with 80% recycled material without compromising on quality or performance.

Camden windows are independently tested and certified, and exceed building regulation requirements for energy efficiency. Our multi-chamber profile system helps to eliminate heat loss for optimal performance.

Delivering excellence

At Camden, we have full control of our delivery system. With our extensive fleet of trucks, we pride ourselves on the ability to consistently meet your delivery requirements and work to competitive turnaround times.

We have developed a fully unified delivery system so that we can provide our customers with the most efficient and reliable service possible.

Not only will your order be there when you need it, our people are on hand across Ireland and the UK in regional hubs to provide on the ground support and ensure top quality customer service.

A faster, simpler order process

Available 24/7

Camden*Direct*

Our dedicated online ordering system provides full flexibility on design, quotes and orders at your fingertips, any time of the day.

With custom-controlled design, live visuals and multi-user access, Camden Direct has been created with your needs in mind.

Coupled with our unified delivery system, we ensure a steady uninterrupted supply of quality products, so you can confidently meet your project deadlines without worrying about delays or shortages.

Unrivalled capacity

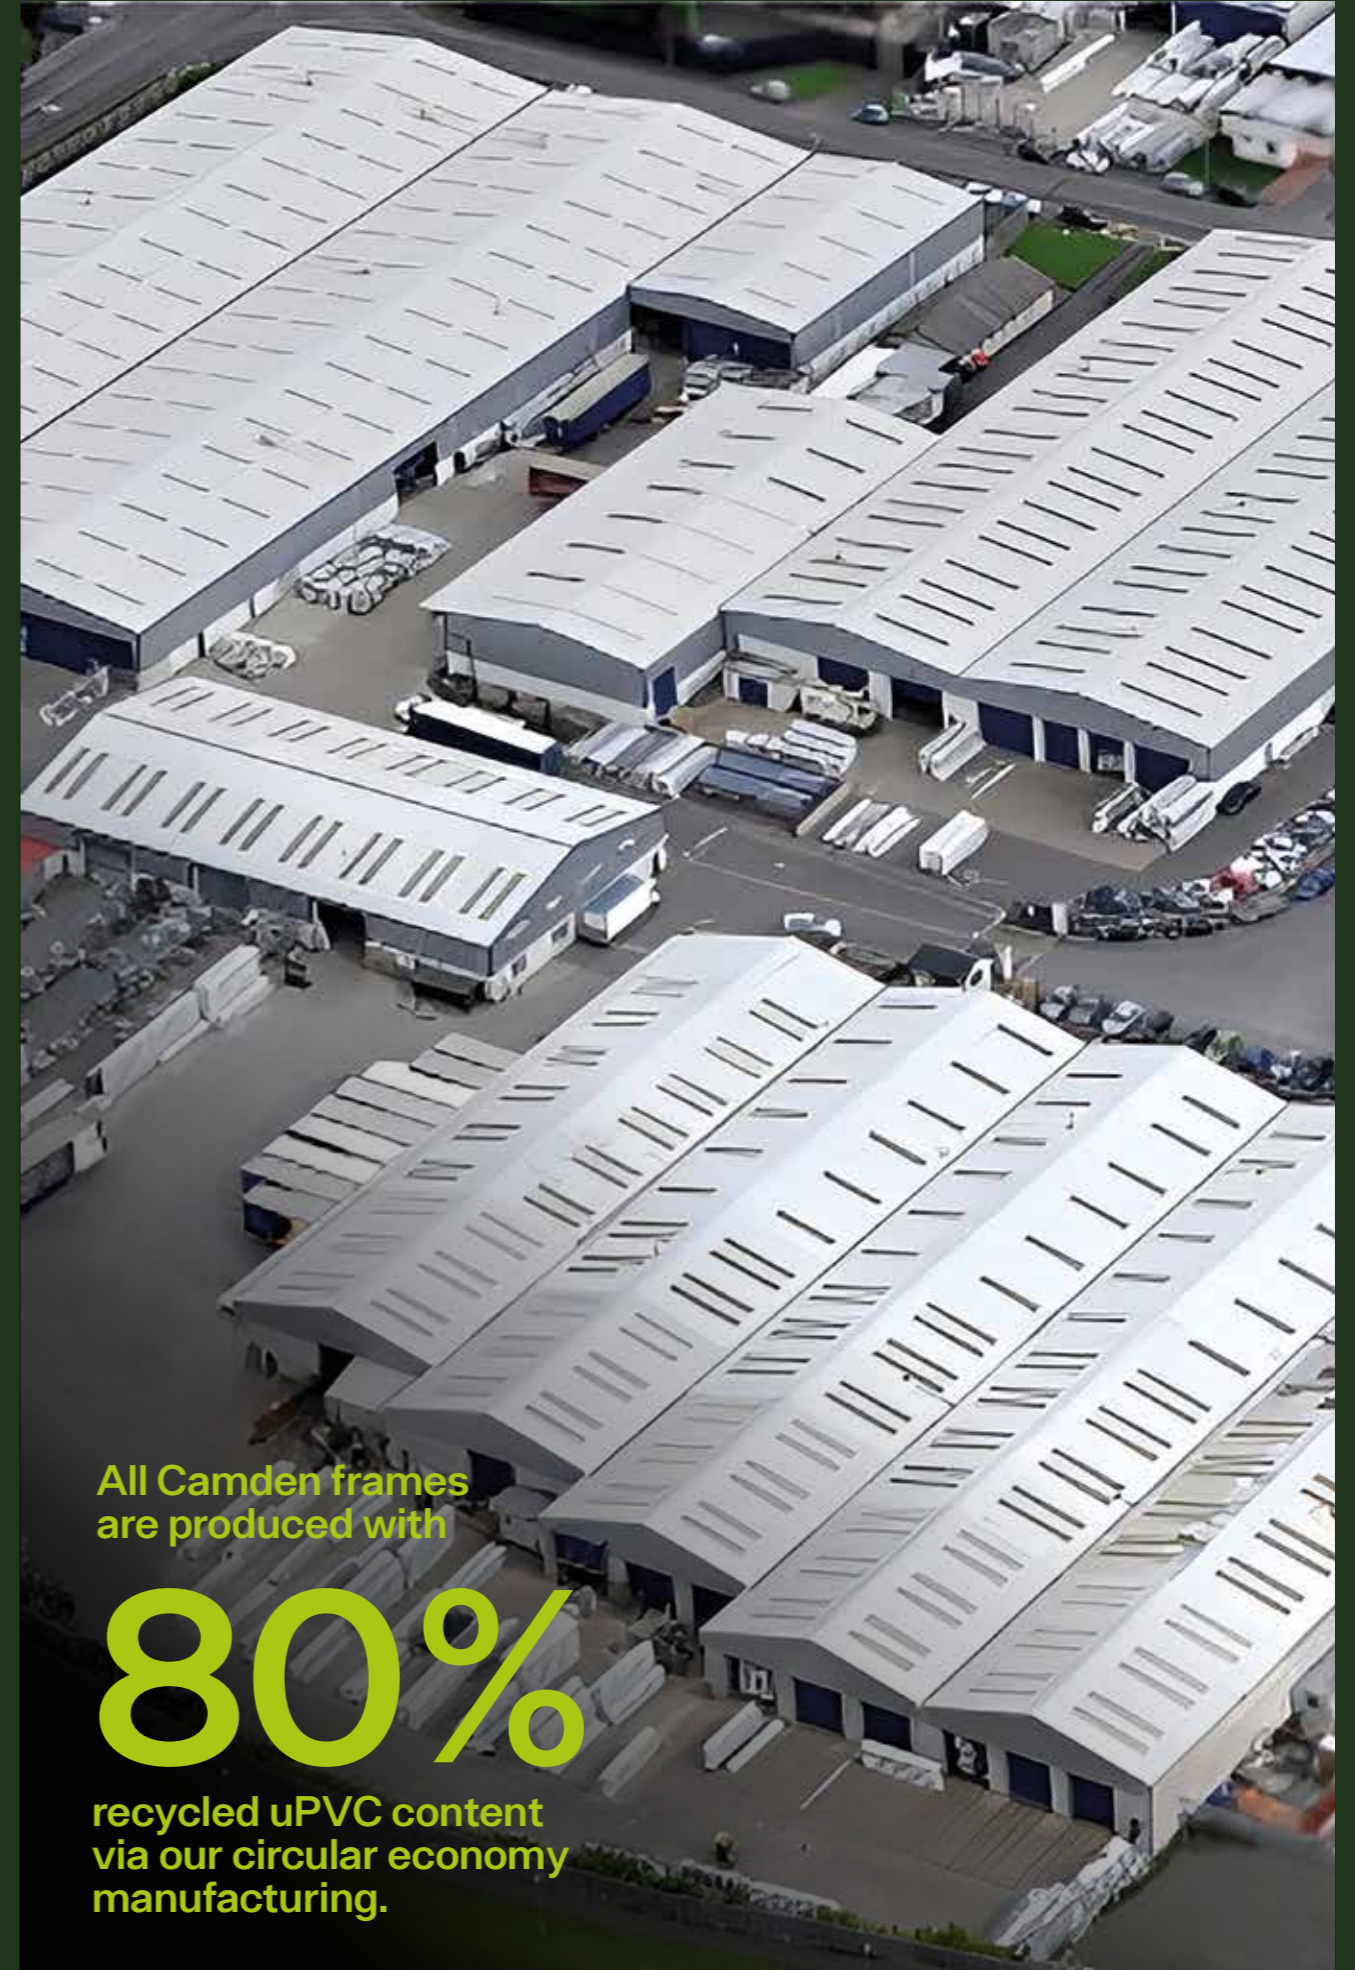

With Camden as your preferred supplier you benefit from our unrivalled capacity. At Camden we have the ability to turnaround large volumes of products every week and with our dedicated reliable fleet you can be assured of fast efficient deliveries to keep your teams going and jobs on track.

Our expansive operations guarantee that you'll have the products you need, when and where you need them, making Camden the premier choice for seamless supply and dependable service.

With our own in-house recycling and extrusion plants Camden produce a highly sustainable & low carbon uPVC frame product produced with up to 80% recycled uPVC content.

Trust Camden to deliver the reliability and excellence you need, every time.

All Camden frames are produced with

80%

recycled uPVC content via our circular economy manufacturing.

Green for Good

At Camden we recycle up to 160 tonnes of old post consumer uPVC frames every week. This repurposed material is extruded onsite and makes up to 80% of all Camden frames.

This circular production system forms the foundation of everything we do, creating sustainable products with no compromise on performance or aesthetic.

With Camden, you're not just choosing premier windows and door—you're choosing a partner dedicated to a greener future.

We are dedicated to reducing our environmental footprint through innovative manufacturing processes, energy efficiency, and a strong commitment to circularity.

By investing heavily in this closed loop recycling process Camden proudly reduces the amount of waste potentially going to landfill by up to 160 tonne per week.
