

Job Description

Job Title: Software developer

Hours of Work: 38.25

Reports to: IT Manager

Salary: TBC

Location: Steeple Ind Estate, Antrim

Employment Type: Permanent

Ref: SD/01/19

Closing Date: 29/01/19

Job Overview:

As part of a rapidly growing company you will immediately become a fully-integrated member of the software development team, developing, maintaining and supporting applications within an outstanding workforce.

You will be involved in the entire software development life cycle, from the early stages of customer-facing requirements-gathering through to the final stage of deployment.

You will be valued from day one, contributing to live projects right from the beginning, and provided with on-going support by an exceptional team.

Main Responsibilities:

- Contribute actively to the design, delivery and support our range of software solutions including Front End code
- Analyse and evaluate program code and identify appropriate modifications and enhancements to existing systems.
- Implementation of software, including user training.
- Develop and execute system test plans to ensure application performance conforms to specifications.
- Demonstration of software at project milestones.
- Work as part of a multi-disciplined agile team to deliver user focused and successful solutions
- Manage production ready applications.
- Be responsible for accessibility and cross browser / cross device compatibility
- Assist in developing methodologies, standards and best practices
- Research and recommend appropriate interactive technologies

Essential Criteria:

- 2+ experience in C#, .Net, ASP.Net, MVC
- JavaScript, jQuery, HTML5, CSS3
- Bootstrap
- SQL Server (T-SQL & Administration)

Desirable Criteria:

Mobile Development (Xamarin, Android Studio)

RESTful API

VB.Net

Source Control (TFS)

Java Development

.net Core
