

Job Description

Job Title:	Extrusion General Operative
Location:	Antrim – Daewoo Site
Reports to:	Team Leader and Factory Manager
Working Pattern:	Continental shift pattern with 2 week rotation from 6:45am to 6:45pm and then 6:45pm to 6:45am – 12 hour shift, 2 days on 2 days off 3 days on 3 day off.

The role will form part of the Extrusion team who are responsible for recycling uPVC to the quality and standard that is expected. Camden products are made up of 80% recycled material and the Extrusion team makes this possible.

Someone who has the aptitude to work in a technical production environment under busy work conditions will enjoy this work, if you are solution minded and can use your technical ability and knowledge to achieve team objectives this is the role for you.

Main job duties:

1. Separating products based on quality assessments
2. Identify problems and make corrective adjustments to maintain a consistent quality product
3. Assist in the setup and operating of tooling and extrusion equipment
4. Produce lengths of uPVC window/door frames (known as profile)
5. Carrying out daily checks on machines, reporting faults and follow-up repairs
6. Cleaning and maintaining your own working area
7. Completing the batch/production record sheets and associated paperwork
8. Maintaining all aspects of health and safety in line with training and work area
9. Maintaining efficiency and meeting targets
10. To perform the job in accordance with the company's policies and procedures, especially the Equal Opportunities and Dignity at Work Policy and Procedure
11. To perform any other duties as may reasonably be required from time-to-time

Your skills:

1. Excellent attention to detail
2. Ability to work in a fast paced environment
3. A good level of English and Maths (20 minute aptitude test)
4. Previous experience in manufacturing would be helpful but not essential

Pay rate: £10.25 per hour based on continental shifts
